

CurrentCare DataGuide

A guide to information available in CurrentCare

This DataGuide shows the status of DSP data in the NEW CurrentCare system as of January 6, 2026.

The Data Sharing Partner (DSP) migration timelines are provided to the best of our knowledge and are subject to change.

What is CurrentCare?

CurrentCare is Rhode Island's Health Information Exchange (HIE). It's a secure network that collects information from practices, hospitals, labs, imaging centers, and other data sources to share crucial patient information with authorized clinical staff.

Everyone benefits when providers access timely patient medical information:

- Improve care
- Save time
- Increase care coordination

**Consent Model is now
Opt Out of data sharing.**

Learn more at:
CurrentCareRI.org/patients

Encounter Notifications

**Where are your patients?
We tell you!**

- You provide a panel (list) of your patients or members.
- We tell you when they have encounters.
- Saves you time to focus on patient care, follow-up tasks, and care coordination.

Choose the tools that fit your workflow best: web-based tool (**Population Explorer**) or "push" options.

Encounter Notification Resources:
CurrentCareRI.org/EN

Clinical Data

Web-based (**Portal**) or in EHR (**InContext**) view of information from Data Sharing Partners (DSPs):

Test Results - Lab, Rad, EKG

**Clinical Data > Health Records >
Laboratory, Radiology, Clinical Notes**

Save time - view results right at your fingertips.

ADT Encounters: Admissions, Discharges, Transfers

**Clinical Data > Encounters >
All, Hospital, Outpatient**

Encounter details (Inpatient, Emergency, Observation & Outpatient), including Diagnoses, Length of Stay, Discharge Disposition.

Clinical Data

**Medication Management > All, 90 Days,
PDMP (for prescribers)
Clinical Data > Problems, Allergies,
Immunizations, Vitals**

- View details: **P**roblems, **A**llergies, **M**edications, **I**mmunizations, **V**itals
- Prescription Drug Monitoring Program meds.

Summary Documents

**Clinical Data > Health Records >
Clinical Notes
Clinical Data > Structured Documents >
HIE, National Network**

- Discharge Summaries & Discharge CoCs from Hospitals (tab: Clinical Notes)
- Care Summary Documents from HIE practices & National Networks (tab: Structured Documents)

Part 2 (SUD) Data

42 CFR 'Part 2' is a federal regulation protecting the confidentiality of patient records around Substance Use Disorder (SUD) treatment.

COMING SOON: Part 2 Data & Consent Tool
